

Gifted Education Cooperative

Announces the

## *GECO Parenting Reading Group*

Join us each month for lively, supportive conversation and discussion of a book on a topic relevant to successful parenting of gifted children.

We're meeting next: December 1, 12:30pm

to discuss

*Upside-Down Brilliance: The Visual-Spatial Learner* (2002) by Linda Kreger Silverman

We're gathering to reduce stress not increase it. Come when you can and read the book at the level that best suits you: scan it for the content that is most personally relevant, read it in detail, or just come to discuss and hear what others have to say about it.
